ENVIRONMENTAL RESPONSIBILITY

Reducing Our Footprint at Every Stage

From the site where a resource is extracted to the port where it is delivered, IMNT applies environmental consideration across the full trading chain.

IMNT
INTERNATIONAL MINERAL & NATURAL RESOURCES TRADING

01 Environmental Due Diligence

Assessing environmental risk as part of our supplier verification process, alongside the origin and compliance checks outlined in our Responsible Sourcing framework.

02 Biodiversity & Land

Favouring producers who operate with documented land-use and biodiversity management practices in the regions where we source.

03 Water & Waste Stewardship

Considering water use and waste management practices as part of our ongoing supplier monitoring.

04 Responsible Logistics

Working with shipping and transport partners to plan efficient routing and reduce unnecessary handling across the supply chain.

05 Community Engagement

Engaging respectfully with the communities located near sourcing sites, and favouring producers who do the same.

06 Worker Health & Safety

Expecting producers and logistics partners to maintain fair, safe working conditions in line with applicable labour standards.
